RESIDENTIAL MOVE

WHITBY ONTARIO

THE MOVE AT A GLANCE

Moving can often be a daunting task, but it doesn't have to be. Like many people over the past few years, Cheri, Fergus, and two children started to realize they had outgrown their home in Whitby and that it was time to begin looking for a bigger space. After attending several showings in Whitby, they found exactly what they were looking for. Their offer was presented and accepted! Shortly after the moving plans begun.

After contacting several local moving companies, all provided extremely high quotes being told it was due to the peak summer season and the arsenal of large indoor and outdoor furniture the needed moved. The family started bracing themselves for a complicated and potentially costly move. As the search for a moving company continued they found Hills. Referred by a family friend who had used our moving services in the past and very happy with their move. Once Fergus and Cheri shared the move details the team at Hills stepped in and started building a moving plan. The move started to transform from a stressful scenario into a smooth moving experience for the family.

CHALLENGES

Overcoming Costs and Complex Logistics

Initially, Cheri and Fergus were overwhelmed by the high moving quotes provided by various

companies in the Durham region. These quotes were inflated due to the summer peak season, pushing their budget to its limits. Additionally, the sheer volume and size of their furniture raised concerns about the logistics of the move, potentially requiring multiple trips and increasing costs further.

The family's priority was clear: they needed a reliable moving service that could handle their extensive inventory without breaking the bank. The challenge was not only financial but also logistical, as they hoped to complete the move in a single trip.
